

ICAR-NBAIR Industry- Interface Meet-2024

The Institute-Industry Interface event took place at ICAR-NBAIR, Hebbal campus on March 20, 2024. Over 75 participants from academia, industry, and research scholars attended. Dr. S.N. Sushil, Director of ICAR-NBAIR, chaired the inaugural session, with Dr. K.L. Gurjar, Joint Director (PP)CIB&RC, as the guest of honor. Dr. Sushil provided an overview of ICAR-NBAIR, highlighting its research, technological achievements, and commercialization activities, emphasizing technologies for crop protection from insect pest]. Dr. Gurjar discussed regulatory compliance measures. The second session featured an exhibition showcasing ICAR-NBAIR's technologies, sparking interest among attendees. Dr. Kesavan Subaharan, Chairman of ITMU, highlighted the technologies' potential in crop protection and waste management using insects. The event concluded with interactions between industry and academia, fostering collaboration for a PPP mode to develop technologies.
