

The valedictory function of the ICAR sponsored WINTER SCHOOL "Morphological and molecular identification including mass production of natural enemies associated with economically important insect pests (including invasives) of Indian agroecosystem" on 05-02-2025

The valedictory function of the ICAR sponsored WINTER SCHOOL "Morphological and molecular identification including mass production of natural enemies associated with economically important insect pests (including invasives) of Indian agroecosystem" was held on 05-02-2025 at ICAR-NBAIR, Hebbal. Dr S. N. Sushil greeted the participants and encouraged them for future research collaborations with ICAR-NBAIR. Dr V. V. Ramamurthy, an eminent entomologist and President of the Entomological Society of India, graced the occasion as the Chief Guest of the function. The Winter School covered 44 lectures including 6 guest lectures, 22 practicals, one field visit to twenty five participants from 12 States and one Union Territory. There were 17 male and 8 female participants from various ICAR Institutes, SAUs and KVKs. The valedictory function concluded after distribution of certificates and receiving positive feedback from the participants.
