01.	Date:	23.09.2025
02.	Event Conducted:	Clean Green Utsav: Organisation of eco-friendly and zero-waste celebrations
03.	Brief Description of the event	On 23.09.2025, our institute participated in the “Clean Green Utsav” an initiative focused on promoting eco-friendly and zero-waste celebrations. The main goal was to address general “Swachhata” challenges by integrating citizen participation and mobilizing partners across local bodies. During the Utsav, fruit, vegetable, and farm agriculture waste were collected. These wastes were inoculated with Black soldier fly larvae for degradation. Leaf litters were collected from in and around Yelahanka campus, pooled in composting bags, and applied with Waste Decomposer solution for faster conversion to manure.
