

ICAR-NBAIR HRD Sponsored Training Program on
**“Mass Production techniques of Microbial and Macrobial Biocontrol Agents for the
Management of Crop Pests”**

March 9-18, 2026

ICAR-NBAIR HRD sponsored training program on “Mass Production techniques of Microbial and Macrobial Biocontrol Agents for the Management of Crop Pests” successfully completed on March 18, 2026. As a valedictory program on the final day, the participants provided positive feedback about the training program. Dr. S. N. Sushil, Director, ICAR-NBAIR gave brief note about the success stories of ICAR-NBAIR role in invasive pest management and distributed training course completion certificate to all the fifteen participants. Head of the Divisions, Scientists, Course Director and Coordinators of the training program participated in the program.
